Jalan Bakti Mulya No.42, Cipadak, Jagakarsa.

Final-year Computer Science student specializing in Data Analytics and Data Science. Experienced in SQL, Python, and advanced Excel for data tracking, cleaning, and financial reporting. Proven track record in translating raw analytical data into actionable business insights and strategic dashboards, combined with strong cross-functional coordination and communication skills.

Education

Gunadarma University

Sep 2022

Bachelor of Computer Science, 3.80/4.00

- Served as Project Manager for the Software Project Management course, overseeing project planning, team coordination, and progress monitoring.
- Completed professional certification training (LSP) in the field of Data Science, covering end-to-end data processing, statistical analysis, and predictive modeling foundations.
- Earned two technical certifications: Basic Database Management Systems (DBMS) and SQL Server for Beginners.
- Actively involved in faculty-level organizations, honing leadership, teamwork, and time management skills through various initiatives.
- Recognized as a top-performing student in the Design and Analysis of Algorithms course.

Work Experience

Advance Management Laboratory - Gunadarma University

Jan 2025 - Present

Admin Supervisor

- Managed and consolidated operational activity records for 90+ laboratory assistants across more than 100 distinct events, ensuring high data accuracy and consistency.
- Generated comprehensive monthly performance recaps and financial reports to support strategic decision-making by lab coordinators.
- Served as the primary liaison for financial and payroll inquiries, while collaborating with fellow supervisors to optimize internal administrative workflows.

Coding Camp University 2026 powered by DBS Foundation

Feb 2026 - Present

Data Science Facilitator

- Dedicated Learning Facilitator for 25 cohorts in the Data Science pathway, driving weekly engagement and progress tracking through structured consultations.
- Provided proactive technical troubleshooting and academic guidance to help students overcome learning obstacles and maintain high program completion rates.
- Successfully moderated and managed logistics for 14 Instructor-Led Training (ILT) sessions, directly coordinating with instructors to ensure seamless session execution.

PT Jawa Pos Grup Multimedia - South Jakarta

Jan 2026 - Mar 2026

Data Analyst Intern

- Performed daily traffic data analysis from Google Analytics for 100+ articles using Excel to monitor Page Views (PV), daily trends, and top-performing content.
- Conducted strategic market and consumer analysis for major brands (including KAO, Pertamina, Lazada, PLN, and BCA) by scraping data and utilizing Python for sentiment analysis.
- Delivered impactful data storytelling presentations via PowerPoint to provide actionable insights for high-value brand collaborations.

- Built automated visualizations in Looker Studio and Excel, enabling real-time monitoring of content performance metrics.

Organization Experience

BEM FTI (Student Executive Board – Faculty of Industrial Technology) - Gunadarma University Sep 2024 - Sep 2025
Deputy Head of Arts and Culture Department

- Oversaw and coordinated the implementation of departmental work programs to ensure operational efficiency and optimal task distribution.
- Monitored end-to-end workflows and project milestones to guarantee the seamless execution of all departmental activities.
- Spearheaded core programs for the Arts & Culture Department, including the "Pojok Seni" initiative and coordination of the BSO Keloset (FTI Arts Group).
- Managed logistics and hospitality as the Head of Equipment and Consumption for various campus events, ensuring all resource requirements were met.
- Directed financial and administrative operations as Treasurer for EnCup, including precise expense tracking and comprehensive financial reporting.
- Developed core competencies in leadership, project management, and cross-divisional communication by resolving complex problems and collaborating with both internal and external stakeholders.

Skills, Achievements & Other Experience

- **Project Manager | Company Website Development, PT Decka Lima Engineering** (2025): Served as the Project Manager for the company's website development, where I was responsible for delegating tasks and defining clear job descriptions to ensure accountability across the team. I developed and maintained comprehensive project schedules while acting as the primary point of contact for client coordination. Furthermore, I facilitated internal team synergy by streamlining communication, resolving conflicts, and maintaining high motivation to ensure the project was delivered successfully and aligned with client expectations.
- **Coding Camp 2025 Participant | Powered by DBS Foundation**  (2025): Completed over 200 hours of intensive training across 14 modules, gaining proficiency in the fundamentals of data analysis, data science, and machine learning. The curriculum covered essential technical skills including programming foundations, SQL, and data visualization, alongside applied machine learning techniques. Additionally, the program integrated soft skills training and career development workshops to prepare for professional roles in the tech industry.
